EXPLORATION GEOSCIENCE R&D

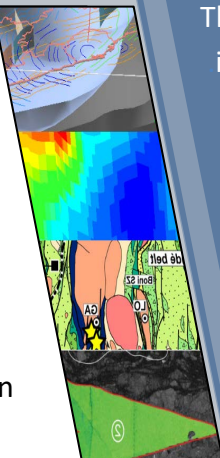

PDAC Convention
March 8, 2017
11:30AM – 1:30 PM
Metro Toronto Convention Centre - North
Room 205B

REGIONAL FRAMEWORK & CAPACITY BUILDING STUDIES

WAXI – Stage 3 (*current program open for investment*)

EAXI – East Africa Exploration Initiative

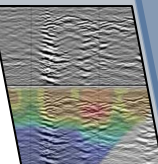

SAXI – South American Exploration Initiative

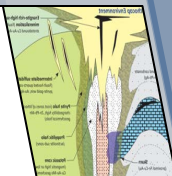

P1196 – The Application of ColdBlock™ Digestion Technologies for Gold Assay and Base Metal Determination

P1187 – Multispectral Ground Penetrating Radar (GPR) for rock characterisation under cover - Stage 1

P1153 – Applying the Explorers' toolbox to discover Cu, Au and Mo deposits (*current program open for investment*)

P1162A – Roadmap for Exploration Under Cover: Stage 2

This will be an opportunity to hear about how AMIRA International is working with stakeholders of the global exploration industry to improve exploration success.

Brief presentations will be given on a range of projects including:

- one designed to deliver a new technique to characterise and quantify mineral samples (ColdBlock™ Technologies) ;
- a project to develop multispectral ground penetrating radar (GPR) for rock characterisation under cover (P1187);
- two new projects that will use the renowned WAXI project model to bring together the exploration community and deliver geological context for mineralisation in East Africa (EAXI) and South America (SAXI).

Time will be allocated for interested parties to discuss the scope of interest for EAXI and SAXI.

Current AMIRA projects will also be presented and opportunities for involvement highlighted.

Come along and meet Adele Seymon - Program Director, Exploration to Mine & Sustainability and Terry Braden - Regional Manager, North America

ADELE SEYMON
Program Director –
Exploration, Mining
& Sustainability

TERRY BRADEN
